**BIG ANNOUNCEMENT:**

We're excited to announce our new location at
[1260 Hartford Pike East Killingly, CT 06243.](#)

Visit us on location for all your Central Boiler needs,
including parts, sales, and expert installation.

This new spot is set up to serve you better, with easy
access for picking up parts and accessibility! We would
love for you to stop in and see it for yourself!

Have you visited our new website yet?

This past month we launched our new website. This site gives you easy access to order parts and schedule service calls online. The online parts store offers **FREE SHIPPING** for all orders over \$100. The new site also has a blog that is updated a few times throughout the month.

There you can find tips, and any updates from headquarters and from us personally.

For the month of June if you book a service on our new site, we will offer \$50 off your service.

Check it out – eccoutdoors.com

Have you seen the new

Classic Edge 865HDX yet?

This new unit will be dropped at our new location on route 101 the first week of June!

Come and check this new unit out.

The best just got better!
Classic Edge 865 Titanium HDX

The Classic Edge Titanium 865 HDX model is U.S. EPA Step 2 Certified

**CLASSIC
EDGE**
TITANIUM HDX

92.7%^{}
(LHV)
Overall
Efficiency**

**CLASSIC EDGE 865
TITANIUM HDX**

**Mfr's Rated Heat Output Capacity -
245,000 Btu/hr^{***}**

Firebox Volume - 23 cubic ft
Firebox Dimensions - 37" L x 41.5" H x 26" W
Door - 22.75" W x 28.75" H
Ash Cleanout Door - 19" W x 11" H
Water Capacity - 360 gallons
Weight - 2,500 lbs
 Three sets of 1-1/4" Supply and Return Ports
 Bypass Door and Alarm
 Furnace Options and Accessories:
 • LED Light Kits

Engineered specifically to be **easier than ever to operate and maintain**, the Classic Edge 865 HDX is **cleaner burning, more efficient** and packed with enhanced features!

- Taller firebox door and the bottom of the door is lower for better firebox visibility.
- Deeper heat exchanger for better efficiency and a longer Fusion Combustor aid in easier operation and a longer duration between maintenance intervals.
- Two rows of primary air tubes are located on both sides of the firebox; the top row of air tubes is higher than the bottom of the door.
- 360-degree primary air supply provides air in the front, back and both sides of the firebox for optimal combustion burning different types of wood.
- No removable ash pan means less maintenance and more heat transfer area.
- Fireball tunnel refractory sections are more robust and interlocking.
- Easy View™ Heat Exchanger offers 52% more surface area than Classic Edge HDX 760 resulting in higher efficiency. Easy-to-install turbulators are shorter and more robust for added durability.
- Fittings, nipples, valves and a pump flange are standard on one set of supply and return ports. This saves time and money and makes connecting water lines easy.

**UP TO
\$2000
TAX CREDIT***
On qualifying models and installation

*On qualified models and installation, US Internal Revenue Code Sec. 2503 effective Jan. 1, 2023, for heating a residence. Consult a tax professional with any questions.
 Efficiencies are determined under the same test conditions using lower heating value and overall efficiency. *Based on EPA qualifying test.

**Financing
Available!**

We are still offering FANTASTIC financing options through TD Bank's Yard Card at 0% for 12 months and 3.99% for 54 months...Don't miss out! These great rates are allowing people to pay off their new system within 4 ½ years with payments around \$550 a month (this includes the entire project – not just the unit alone).

We never know where are heating costs are going to bring us, but when you have a Central Boiler you are

**more in control of your heating costs and that peace
of mind is priceless!**

Post Season Maintenance Cleanings

We are still scheduling, but I will say the schedule is filling up quickly. Get in while you can! Below is a picture of one of our Boiler Technicians, Zakk, performing a cleaning.

Call the office to schedule [508-713-5087](tel:508-713-5087)
